INTRODUCTION

The Secretary of State and Registrar General of Canada administers legislation relating to companies, patents of invention, trade marks, copyright, industrial designs, timber marking, governmental and parliamentary translations, boards of trade, the registration of trade unions, public officers and public documents.

The Secretary of State is the channel of communication with the Governor General and, through him, with the Sovereign concerning various matters, such as decorations and other subjects related to the exercise of the royal prerogative, and is responsible for the preparation and tabling of certain returns in Parliament.

The Registrar General is the custodian of the Great Seal of Canada and of a Privy Seal of the Governor General.

The Decorations Committee and the Committee on the use of Parliament Hill and the National War Memorial report to the Secretary of State. State ceremonial, decorations and precedence, including publication of the Guide to Relative Precedence at Ottawa, are amongst a variety of "residual" functions entrusted to the Department of the Secretary of State.

The staff of the department is headed by the Under Secretary of State and Deputy Registrar General of Canada, who is also Deputy Custodian of Enemy Property. Other officers are the Assistant Under Secretary of State and Advisory Counsel and the directors of the divisions enumerated below, three of whom have statutory designations, namely the Commissioner of Patents, the Registrar of Trade Marks, and the Superintendent of the Bureau for Translations.

The functions of the department are carried out by the following divisions: Administrative Services Division, Companies Division, Patent and Copyright Office, Registration Division, Special Division, Trade Marks Office and Bureau for Translations. The activities of these divisions, in that order, are outlined in this report.

The Secretary of State is Custodian of Enemy Property and as such administers legislation relative to wartime trading with the enemy. The operations of the Office of the Custodian of Enemy Property are dealt with in a separate report tabled in Parliament annually by the Secretary of State.

The Secretary of State, in addition, administers the Department of Public Printing and Stationery and is the spokesman in the Privy Council, Cabinet and Parliament of the Civil Service Commission and the Chief Electoral Officer. However, the present report covers only the operations of the Department of the Secretary of State.

INTRODUCTION

The Secretary of State and Registrar General of Canada administers legislation relating to companies, patents of invention, trade marks, copyright, industrial designs, timber marking, governmental and parliamentary translations, boards of trade, the registration of trade unions, public officers and public documents.

The Secretary of State is the channel of communication with the Governor General and, through him, with the Governor in Council. He is also the channel of communication with the House of Commons and the Senate of Canada. He is responsible for the preparation and passing of certain orders in Council.

The Registrar General is the custodian of the Great Seal of Canada and of a copy of the Constitution of Canada.

The Department of State and the Registrar General are the custodians of the National War Memorial report to the Secretary of State. The report contains a list of names of persons who have died in the war, and a list of names of persons who have been awarded medals and decorations. The report is published in the *Journal of the Department of State*.

COMPANIES DIVISION

Under the Companies Act

Letters patent were granted incorporating 733 companies under Part I and 55 corporations without share capital under Part II.

Supplementary letters patent were granted to 481 existing companies and to 11 existing corporations without share capital; 9 certificates were issued to existing companies increasing the amount of the consideration to be received for the issuance of shares without nominal or par value.

Pursuant to the provisions of Part IV, 6 licences were issued to foreign mining companies to carry on mining operations in the Northwest Territories and in the Yukon Territory.

The total number of documents entered on the Register of Mortgages and Charges pursuant to the provisions of sections 66, 67 and 68 was 147. The instruments so entered include 61 deeds of trust and mortgage, 33 supplemental indentures, 4 appointments of receiver, 14 debentures, 3 actes de fiducie, 1 series of secured notes, 1 supplemental debenture and 30 memoranda of satisfaction.

The number of annual summaries submitted under section 125 totalled 11,432.

Under section 29 certificates of acceptance of surrender of charters were issued dissolving 174 companies and 37 charters were returned for cancellation. Advice was received to the effect that some 22 companies had gone into bankruptcy or were in the process of liquidation.

The Companies Division maintains a complete record of the names of all Canadian companies incorporated under or by federal and provincial statutes. There were 4,599 searches undertaken by the Searching Section, of which 3,373 were to determine the availability of suggested corporate names and 1,226 were inquiries as to the existence or otherwise of companies under specific names.

Under the Boards of Trade Act

There were 14 boards of trade registered and 2 orders in council issued changing the names of boards of trade.

Under the Pension Fund Societies Act

There was one pension fund society registered.

Information concerning the revenue, expenditure and staff of the Companies Division is shown on page 7.

PATENT AND COPYRIGHT OFFICE

Report of the Commissioner of Patents for the fiscal year ended March 31, 1958.

INTRODUCTION

This report is made pursuant to the requirement of section 27 of the Patent Act, (Chapter 203, R.S.C. 1952 as amended by Chapter 19, and Chapter 40, section 15, 2-3 Eliz. II, 1953-54). The tables included herein contain information concerning the transactions of the Office, patent, copyright, industrial design, and timber mark fees, total receipts and expenditures, trend of invention, residence of inventors for applications filed and residence of inventors for patents granted. Examination and disposal of a patent application by the Office in accordance with the Act and Regulations entail a search for novelty, consideration of inventive subject matter, a decision as to patentability and also verification of compliance with procedural requirements. The statute provides for the grant of a seventeen year exclusive right to the inventor (or his successor in title) in return for his disclosing and making available to the public the product of his inventive genius and labours. It also contains provisions to safeguard the public interest against possible abuses of patent rights.

GENERAL BUSINESS

The general business of the Office again shows an increase compared with that of the previous year. The transactions relating to patents, designs, timber marks and copyrights amounted to 156,972.

Applications for patents totalled 22,257, an increase of 495, or 2.27 per cent. Of the total number of applications filed, 16,262 claimed priority of filing date under the International Convention for the Protection of Industrial Property. This is an increase of 871 or about 5.66 per cent.

Allowances of applications totalled 17,717, an increase of 1,317 or 8 per cent over last year. There were 33,256 reports on patentability, an increase of 7,118 or 27.23 per cent more than last year. The allowances and reports, being the total number of applications acted on by the Examiners, amounted to 50,973 or 8,435 more than last year and represent also an all time record for the Office. During the year, 3,838 applications became abandoned through rejection for non-patentability or failure of the applicant to continue prosecution.

There were 16,261 patents issued. This is an increase of 748 or 4.82 per cent over last year. This is also an all time high.

The number of deeds entered in the register of assignments was 19,744, an increase of 620.

Copies of specifications, drawings and other patent documents to the number of 12,479 were made.

Copyright applications numbered 5,128 and there were 5,052 registrations made. Industrial design applications amounted to 741 and 665 designs were registered; 169 design registrations were renewed.

The following tables show, respectively, the transactions of the Patent Branch and of the Copyright and Industrial Design Branch for the last ten year period.

The fees from all sources amounted to \$1,460,203.84, an increase of \$33,438.30 from the preceding year.

Receipts from the Patent Branch totalled \$1,438,218.29. This is \$32,978.85 more than last year. There were increases mainly in filing, final, assignments, claims, caveats and searches under section 11 fees.

Copyright Branch receipts were \$21,985.55, an increase of \$356.83.

The total expenditure was \$1,990,024.30, an increase of \$283,466.70. There were increases in salaries due to the general revision authorized by the Government and the normal statutory increases. The cost of printing the Patent Office Record and the patents was also higher due to a greater number of patents issued and printed and the rising cost of labour and material.

PATENT GRANTS

There were 16,261 patents granted. Of the total 16,223 were issued for the full term of seventeen years and 15 were reissued under section 50 of the Act for the unexpired term of seventeen years for which the original patents were granted. Under section 28A, 23 patents were issued.

Patents issued to assignees of the whole interest totalled 13,287, jointly to inventors and assignees of part interest 144, to inventors 2,797 and to legal representatives 33.

The number of patents issued to companies was 13,133, to individuals 3,087 and to companies and individuals jointly 41.

Patents where invention was claimed to have been made by two or more inventors totalled 4,710 and by one inventor 11,551.

Of the total, 76 patents were issued to female inventors, to male and female inventors jointly 57, and to male inventors 16,128.

There were 1,488 patents granted to Canadian citizens or companies and 14,773 to applicants of foreign origin.

There were 12 patents issued subject to the Public Servants Inventions Act.

FORFEITURES, RESTORATIONS AND REINSTATEMENTS

Due to failure to pay the final fee within the period required by section 75, a total of 663 allowed applications became forfeited. Upon payment of restoration and final fees 113 forfeited applications were restored. Of the applications that had lapsed through failure to complete the formal papers or prosecute within the time provided by section 32, reinstatements were allowed in respect of 92.

REGISTER OF PATENT AGENTS

Under the provisions of section 15 of the Patent Act and the Rules under the Patent Act, the names of 79 patent agents were added to the Register. By reason of failure to comply with rule 144, the names of 48 patent agents were removed from the Register. A qualifying examination under rule 143 was held at Montreal, Ottawa, Toronto, Sarnia and Vancouver, on October 21st and 22nd, 1957. Fourteen candidates tried the examination and six were successful. At the close of the year the names of 1,130 patent attorneys and patent agents appeared on the Register.

PATENT OFFICE RECORD

Pursuant to section 27 of the Patent Act, which requires the publication of a list of all patents granted, the official journal of the Office, The Canadian Patent Office Record, was published on Tuesday in each week. Publication was made in each issue of the principal drawings and claims of patents granted on the date of publication, notices and other actions under the Patent Act, lists of copyrights registered, assignments of copyrights and abridgements of industrial designs registered during the week.

The Office continues to exchange the "Record" for the official journals, indexes and reports on patents and designs from patent offices in Australia, Austria, Belgium, Brazil, Egypt, France, Great Britain, Germany, India, Italy, Japan, Korea, Mexico, the Netherlands, New Zealand, Norway, Pakistan, Union of South Africa, Sweden, Switzerland and the United States of America.

The "Record" was also exchanged for 19 scientific periodicals and trade journals for the use of the Office.

PATENT PRINTING

The Department of Public Printing and Stationery printed 19,392 patents during the year for the Office. This figure includes 89 reprints and 1,849 patents of the issue of 1948.

PATENT OFFICE LIBRARY

During the year 2,057 volumes were added to the Library. Copies of current patent issues were received regularly from Australia, Austria, Belgium, France, Great Britain, Italy, Japan, the Netherlands, Sweden, Switzerland and the United States of America. In addition patent journals, indexes and reports were received from the countries named in the paragraph entitled Patent Office Record above.

The Patent Office Library now contains copies of patents of the following countries from the dates given to the present date, namely:—Great Britain from the year 1617, the United States of America from 1845, France from 1902, Italy from 1925, Australia from 1926, the Netherlands from 1947, Sweden from 1947, Switzerland from 1949, Austria from 1949, Belgium from 1950 and Japan from 1950. The Library also contains printed copies of Canadian patents from 1949 and plant patents of the United States of America from No. 1 of August 1, 1931 to No. 1,693 of March 25, 1958.

All the United States patents from 1934 to date are segregated according to the classification in force at the time of issue of the individual patents.

The Patent Office Library contains 27,148 volumes in all.

STAFF

The number of established positions was increased during the year from 264 to 295 as provided for in the estimates for 1957-58.

The average number of positions occupied was 247.

During the year 17 patent examiners were appointed. Eleven examiners resigned their positions and one retired on pension. The average number of examiners' positions filled was 86.

The shortage of Engineers was again felt during the year; however the prospects for the coming year appear to be brighter.

NEW OFFICES

During the month of March 1958, the Patent Office was moved into its new premises in Number 8 Temporary Building on Carling Avenue. For the present time the printed patents, some of the foreign patents and other files are still stored in other buildings pending the allocation of additional space in our building.

The move has given us the opportunity of reorganizing our flow of work, of organizing better library and searching facilities and generally improving our services to the public.

MICROFILMING

In order to protect valuable files and in an effort to cope with the ever increasing bulk of permanent records, a program of microfilming was started during the year. At the present time, old patent specifications are being micro-filmed; the assignment records and patent exemplifications will also be done.

NEWFOUNDLAND PATENTS

Five applications for the grant of letters patent under the laws of Newfoundland (pursuant to the provisions of subsection (3) of section 20 of the Terms of Union of Newfoundland with Canada) remained pending at the end of the year, notice of objection to the grant of such letters patent having been filed against each application.

REGISTRATION DIVISION

The following schedule indicates the number of documents issued and registered in this division from April 1, 1957 to March 31, 1958, inclusive.

The Registration Division is charged with the responsibility of collecting the returns to orders and addresses of the House of Commons and Senate and also the answers to questions which concern more than one department of the government.

The Division is the custodian of the following seals, which it affixes to the appropriate documents: Great Seal of Canada, Governor General's Privy Seal, Seal of the Administrator of Canada, Seal of the Secretary of State of Canada, and Seal of the Registrar General of Canada.

A considerable amount of miscellaneous work was performed in connection with the registration of documents, proofreading, furnishing memoranda of various kinds and supplying information from the indexes and records.

Lists are appended of public officers whose commissions were registered, of Boards of Trade registered under the Boards of Trade Act, and of registered bonds and securities.

SPECIAL DIVISION

The customary arrangements were made for the printing and distribution of the Speech from the Throne by which Her Majesty the Queen opened the 23rd Parliament on October 14, 1957.

Permission was granted by the Secretary of State for the use of Parliament Hill and the National War Memorial for fourteen ceremonies.

Applications were considered and correspondence was carried on in connection with applications for royal patronage, for example, in the form of permission to use the title "Royal" and the names of members of the Royal Family; arrangements were made for congratulatory messages from the Sovereign in 498 cases of sixtieth wedding anniversaries and 80 cases of one hundredth birthdays; there was one application for a message from the Queen on the occasion of the birth of triplets. The Queen has made known her decision that the payment of three pounds sterling from the Privy Purse as a Royal Bounty to parents on these occasions will be replaced by a message of congratulation from Her Majesty to the parents.

A number of suggestions for the award of bravery decorations by the Queen to Canadian citizens were received by the Department, investigated and submitted to the Decorations Committee.

The Special Division represented the Department on the Government Hospitality Committee, as well as on its programme and publicity sub-committees, in connection with arrangements for the stay in Ottawa of Her Majesty the Queen and H.R.H. the Prince Philip.

The hospitality and ceremonial arrangements as to which the Division gave assistance during the year included:

XIVth Quinquennial Congress of the Universal Postal Union, August to October, 1957;

Dinner by the Prime Minister of Canada and Mrs. Diefenbaker in honour of delegates to the Sixth Mining and Metallurgical Congress, September 30, 1957;

Arrival and departure ceremonies in honour of Her Majesty the Queen and His Royal Highness the Prince Philip, Duke of Edinburgh at Uplands Airport, October 12 and 16, 1957;

Reception by the Prime Minister of Canada and Mrs. Diefenbaker in honour of Her Majesty Queen Elizabeth II and His Royal Highness the Prince Philip, Duke of Edinburgh on October 15, 1957.

The Guide to Relative Precedence at Ottawa, based on the Table of Precedence for Canada, was revised and issued.

The Division gave the usual assistance in response to numerous written and verbal enquiries concerning protocol, such as precedence, ceremonial, hospitality, styles of address, the wearing of decorations, the proposing of toasts, the use of royal photographs, the use of flags and armorial bearings, and the national anthem.

Consideration was given to arrangements for the adoption for all government purposes, such as reproduction on stationery, medals, insignia, buildings, etc., of a simplified design of the coat of arms in strict accordance with the terms of the royal proclamation of November 21, 1921, by which King George V assigned armorial bearings to Canada. The Secretary of State announced on October 8, 1957, the Government's approval of the simplified design, for which the Queen's Printer is making arrangements for reproduction.

Correspondence was conducted with the provinces on behalf of the Department of External Affairs regarding participation in international conventions, reciprocal enforcement of marital maintenance orders, etc. Consideration is being given to a procedure for the Department of External Affairs to communicate direct with the provinces on these and similar subjects. Other correspondence related to 130 documents deposited pursuant to statutory requirements, the authentication by the Governor General of 90 documents and the transmission of 277 commissions of appointment.

Statutes of the provinces were received and sent to the Department of Justice for examination under Section 90 of the B.N.A. Act; warrants under the Extradition Act were forwarded. There was no action taken under the Canada Temperance Act; part II of this act remains in force only in the counties of Perth and Huron in the Province of Ontario.

The Special Division compiled and edited the annual report of the Secretary of State. The Division maintained a limited service of newspaper clippings for the Department.

BUREAU FOR TRANSLATIONS

On March 31, 1958, the staff of the Bureau numbered 294 employees, including 209 translators of all grades and 85 administrative and clerical employees.

Parliamentary and legal translations

Translation was made of the official report of the Debates of the House of Commons (January and October sessions, 1958), which covered 6,590 pages for the two sessions. Also translated were the report of the Senate Debates, comprising 1,120 pages, the proceedings of the standing and special committees of both Houses, and the estimates.

The Law Division translated 257 bills and motions with explanatory notes and indexes.

The Bureau's Privy Council Division, which is not only responsible for the day-to-day translation of orders, proclamations, regulations under various statutes and indexes, but also translates international conventions and agreements and many legal documents for the Privy Council, undertook the classification of regulations, revised earlier texts of regulations translated in other divisions and translated Treasury Board decisions, special orders and other departmental documents.

The services of the parliamentary divisions were also made available to other governmental bodies and commissions, notably the Royal Commission on Radio and Television Broadcasting, the Royal Commission on Canada's Economic Prospects and the Royal Commission on the Coasting Trade. Assignments from these sources have been increasing steadily in volume.

Departmental translation

The volume of work by the departmental divisions has continued to increase to the point where the staff of some of the divisions will have to be enlarged. However, a trend to stabilization has been noted. The rate of increase in the work was not as great as in previous years.

Foreign languages

The work of the Foreign Languages Division continues to increase. The volume of translation from Russian, in particular, is steadily rising.

Translation done on a firm price basis outside of the Bureau

As in other years, it has been necessary to enlist the services of outside translators. The amount of translation done outside the Bureau for the General Translation Division was much smaller (65,200 words compared with 1,239,588 words the previous year), mainly because of the small volume of reports of parliamentary committees. On the other hand, for the Foreign Languages Division, 1,328,643 words were sent outside for translation, compared with 960,334 words the previous year.

Total work done

It will be seen from the table on page 32 that the translation done by the Bureau during the year 1957-1958 totalled 72,743,548 words. This includes translations done outside the Bureau. It will also be noted that a considerable portion of the work consists of translation of correspondence. The "Words" column under the heading "Miscellaneous" refers to the preparation of reports, statistical documents, comparison and standardization of texts, written consultations, etc.

The "Hours" column represents the time spent in research, proof-reading, the revision of work done outside the division concerned, the compiling of glossaries, and other work related to translation which cannot be calculated in numbers of words.

Co-operation with other bodies

Translators were called upon to give assistance to other official bodies as, for example, in the marking of translation examination papers for the Civil Service Commission, or reviewing candidates' records in promotional competitions; in addition, assistance was given to various departmental and inter-departmental committees such as the Board of Geographical Names, Department of Mines and Technical Surveys. The time devoted to such assistance is not reflected in the table on page 32.

Under this heading also fall the lectures on translation or related topics given under the auspices of the Bureau in secondary schools or institutions of higher learning and in learned societies, as well as the articles on those subjects contributed to specialized periodicals.

Terminology Service

During the past year this service published several terminological bulletins; several others are in preparation. The service is revising older bulletins and bringing them up to date. A plan is under consideration to make these documents available to the public.

The *Terminology Service* keeps in touch with many similar bodies in other countries, particularly international organizations, and receives from them some valuable vocabularies and terminological lists in exchange for its own. This service co-operates and exchanges information, for example with the *Comité d'étude des termes techniques français* of Paris, and has thus obtained permission to reproduce for the Bureau the card files of the *Comité*.

During the past year this service published the following terminological bulletins:

Canalisation et aménagement hydroélectrique (BT-44) (annule BT-29)

Terminologie de la lutte contre les incendies de forêts (BT-45)

Les fiches du Comité d'étude des termes techniques français (BT-46)
